Tracks

## TRACKS

In this section, we'll help you set the framework for your full mentoring season. We provide both a 9 and 12 month Recommended Track as well as the ability to create a Custom Track from our 22 modules.

1 Recommended

2 Custom

3 Singles

- 1. RECOMMENDED TRACK:** If you choose to follow our recommended tracks, we've created a one-page snapshot (Matrix) for you, as well as a Mentor Binder containing every document your mentors will need for the mentoring season.
- 2. CUSTOM TRACK:** If you choose to create your own track, we have provided instructions on how you can create your own Matrix and Mentor Binder.
- 3. SINGLES TRACK:** If you're going to have a group of singles, we've created a track with resources specifically for them.

**The following two additional resources are also included in your account. Both are important parts of the mentoring process.**

## **APPLICATIONS**

We highly recommend you have men apply to be a part of a mentoring group. Your account contains a custom link you can send to your potential applicants. When an application is received, you will get an email. You can also view all of the completed applications together on the Completed Applications page.

Surveys

## SURVEYS

At the conclusion of your mentoring season, we highly recommend you survey your participants. We've created a helpful survey you can send out, allowing you to get feedback on the experience. Just like the Application system, you have a custom link enabling you to easily send the surveys and review the results.
